Riproduzioni legno

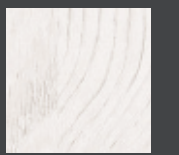

**red dot winner 2025**

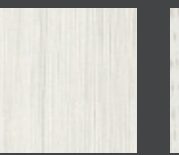

to.egger.link/s17

La particolarità della nuova finitura ST17 Omnipore Oiled è il livello di lucentezza molto basso che risulta opaco anche nel poro.

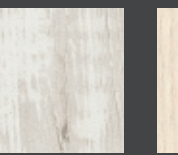

Come formato piccolo senza ripetizioni, H1316 ST17 Rovere Bookmatch presenta una venatura continua senza ripetizioni, per un effetto legno autentico e naturale. Offre la massima libertà di progettazione per design su larga scala che in precedenza si poteva ottenere solo con l'impiallacciatura.
